

## double sided

### EUROGRAPHIC 781/10 Platemounting

#### Thin film, yellow creped PVC liner

Double sided mounting tape with PVC backing, for photo polymeric or rubber plates on cylinders of small diameter, with immediate high adhesion. No edge lifting, also on small cylinders. High flexibility.

BACKING	ADHESIVE	COLOUR	TOTAL THICKNESS	ADHESION	TENSILE STRENGTH	ELONGATION TO BREAK	TEMPERATURE RESISTANCE
PVC	Natural rubber	Trasparente (yellow creped PVC liner)	0.100 mm	ext: 11.25 N/25mm int: 11.25 N/25mm	140 N/25mm	75 %	\

### EUROGRAPHIC 781/20 Platemounting

#### Medium thick film, dark brown creped liner

Double sided mounting tape with PVC backing, for photo polymeric or rubber plates on small diameter cylinders. Immediate high adhesion. No edge lifting on small cylinders. High flexibility.

BACKING	ADHESIVE	COLOUR	TOTAL THICKNESS	ADHESION	TENSILE STRENGTH	ELONGATION TO BREAK	TEMPERATURE RESISTANCE
PVC	Natural rubber	Transparent (dark brown creped PVC liner)	0.200 mm	ext: 12.5 N/25mm int: 12.5 N/25mm	320 N/25mm	80 %	\

### EUROGRAPHIC 781/30 Platemounting

#### High thick film, green creped PVC liner

Double sided mounting tape with PP backing, for photo polymeric or rubber plates on cylinders of small diameter. Immediate high adhesion. No edge lifting on small cylinders. High flexibility.

BACKING	ADHESIVE	COLOUR	TOTAL THICKNESS	ADHESION	TENSILE STRENGTH	ELONGATION TO BREAK	TEMPERATURE RESISTANCE
OPP	Natural rubber	Transparent (green creped PVC liner)	0.300 mm	ext: 10 N/25mm int: 10 N/25mm	175 N/25mm	980 %	\
